

In the claims:

*Please add new claims 10-15 as follows:*

---

10. (New) A processor based postage metering system as set forth in claim 9, wherein the first evidence of postage is one of a postal revenue block and a postage indicia.

11. (New) A processor based postage metering system as set forth in claim 10, wherein the second evidence of postage is one of a postal revenue block, a postage indicia and a return postage data block.

12. (New) A processor based postage metering system as set forth in claim 9, wherein the first and second designated locations are on a same side of the document.

13. (New) A processor based postage metering system as set forth in claim 9, wherein the first and second designated locations are on opposite sides of the document.

14. (New) A processor based postage metering system as set forth in claim 9, wherein the automatic determination of the first and second locations is also based on secondary data.

*Am*

15. (New) A processor based postage metering system as set forth in claim 14, wherein the secondary data includes at least one of envelope dimensions including window position, document orientation, fold orientation, and document size.
